President:

Vincent Vander Poorten

Dear Colleagues and dear Friends,

The subject of the Annual Congress of B-ORL - the Royal Belgian Society for Otorhinolaryngology and Head and Neck Surgery – **“ORLHNS as team player in multidisciplinary management”** – has never been more actual than today.

The medical care nowadays is constantly improving, yet becoming increasingly complex and requiring the collaboration of different disciplines to provide optimal care for the patient.

ORLHNS typically are very much used to teamwork and open to collaborate with and respectfully learn from any other discipline if we believe it is in our patients' best interest. That is why we organized in Leuven a very broad multidisciplinary program where you as ORLHNS can learn from and interact with experts from collaborating disciplines: Pneumology, Allergology, Plastic and Reconstructive Surgery, Oral and Maxillofacial Surgery, Anaplastology, Neurology, Neurosurgery, Ophthalmology, Speech and Language Therapy, Medical Oncology, Radiation Oncology, Pediatrics and Neonatology and Rehabilitation Medicine. Vice versa, they can learn from us.

I promise you that you will be fascinated and thrilled non-stop throughout the congress and we all will leave as a richer and better doctor.

We have the honour of the presence of several fantastic international leaders in our field that will provide keynote lectures: we welcome Prof. **Piero Nicolai** (pioneer in anterior skull base surgery and head and neck surgery, University of Padova, Italy), Prof. **Dirk Kunst** (lateral skull base surgery, Maastricht, the Netherlands), Prof **Vinidh Paleri** (pioneer in Transoral Robotic Surgery, Royal Marsden Hospital, London, UK), Dr. **Daniele Borsetto** (Lateral Skull Base, Cambridge, UK) Dr. **Robert Pauw** (Otology, Rotterdam, the Netherlands), Prof. **Henk Blom** (Otology, Den Haag, the Netherlands) and Dr. **Bas Pullens**, (pediatric ORL, Rotterdam, The Netherlands). Together with the esteemed Belgian colleagues, they will provide a vibrant program focused on multidisciplinary care.

The meeting will take place on Friday 4th and Saturday 5th of September in **UZ Gasthuisberg** Leuven, a stimulating setting where the clinic meets research and vice versa, and where there is ample room and time to interact with colleagues as well as with the supporting companies – our sponsors. The point sublime will be a great conference dinner at the historic site of the Faculty Club – Groot Begijnhof on the evening of Friday 4th.

I wish you a pleasant and interesting meeting!

On behalf of the Board,

Vincent Vander Poorten

President 2026 B-ORL - Royal Belgian Society for Otorhinolaryngology and Head and Neck
